Address	22375 Broderick Dr, Suite 200, Sterling, VA 20166
Website	https://dxmod.ai/nasa-sewp-vi

1. Program Support Information

1.1 Requesting a Quote

Send quote requests through the SEWP Quote Request Tool, or contact DxMod directly. Please include the SEWP category, your requirement or statement of work, and the requested response date.

Role	Name	Phone	Email
SEWP Point of Contact (quotes, orders, support)	Satish Dronavalli, Contract Administrator	703-424-0077	satish@dxmod.ai

1.2 Installation, Warranty, Technical Support, Software Support, and Post-Delivery

DxMod delivers IT services under SEWP VI Categories B and C. The following policies apply to every DxMod SEWP order.

- **Installation and implementation.** Before work begins, DxMod confirms scope, schedule, site access, security requirements, and acceptance criteria with the ordering agency.
- **Warranty.** DxMod services are warranted under the terms of the SEWP VI contract and the individual delivery order.
- **Technical and software support.** Support is provided for the period of performance stated in the delivery order, through the contacts in Section 1.1.

- **Post-delivery issues.** Report any post-delivery issue to the SEWP Point of Contact. DxMod coordinates a resolution plan with the ordering agency.

1.3 Order Troubleshooting

For questions on order status, modifications, invoicing, or delivery, contact the SEWP Point of Contact. Please include the agency order number and the SEWP control number. Agencies may also contact the SEWP Program Office at any time.

2. Overview

2.1 About DxMod

DxMod LLC is a Joint Venture under the SBA-approved Mentor-Protégé Program between protégé and managing partner EKIN Solutions, Inc. and mentor Karsun Solutions LLC. DxMod is based in Sterling, Virginia. It delivers application development and modernization, user experience engineering, cloud engineering, DevSecOps, data engineering, and artificial intelligence services to federal agencies.

2.2 About NASA SEWP VI

NASA SEWP (Solutions for Enterprise-Wide Procurement) is a multi-award Government-Wide Acquisition Contract (GWAC) administered by the NASA SEWP Program Office. It provides information technology, communication, and audio-visual solutions and services to all federal agencies. The SEWP VI ordering period runs from November 1, 2026 through October 31, 2036. SEWP VI supports firm-fixed-price, labor-hour, time-and-materials, and other pricing arrangements.

The program is funded through an agency administrative handling fee not to exceed 0.34% of the total order price. The fee is included in quoted prices.

2.3 DxMod Scope Under SEWP VI

Category	Scope DxMod offers
B: Enterprise-wide IT Service Solutions	Cloud engineering, migration, and managed cloud operations; DevSecOps platforms, automated builds, and security compliance; enterprise application operations and maintenance; data platforms and data engineering.
C: IT Mission-Based Services	Agile application development and legacy modernization; user experience engineering and human-centered design; artificial intelligence and generative AI solutions; data engineering and analytics for mission decisions.

3. Fair Opportunity and Requests for Quotes

SEWP VI is a multi-award GWAC. The Fair Opportunity clause of the contract (A.1.13) states:

"Contractors will be provided a fair opportunity at the individual order level as appropriate per FAR Part 16.505(b), including the SEWP RFQ tools."

"The Contractor shall not market, quote or otherwise offer for sale, any IT Solutions not listed under this contract, until the said solutions are included in the SEWP database of record."

"If the Government issues a Request For Quote (RFQ) or a Market Research Request (MRR), the Contractor may only respond with items available on their Contract."

"Unless the RFQ specifically allows for partial quotes, the Contractor must respond fully to all requirements specified in the RFQ."

Each contract holder must be given a fair opportunity to be considered for each order exceeding \$10,000 under the multiple-award contracts, per FAR 16.505(b)(1). The SEWP Quote Request Tool is the recommended method to meet this requirement and to support the required decision documentation.

4. How to Order

Step	Action
1. Define the requirement	Prepare the statement of work or requirement description. DxMod can support a scoping discussion on request.
2. Request quotes	Issue an RFQ through the SEWP Quote Request Tool (www.sewp.nasa.gov) under Category B or C, or request an DxMod quote directly.
3. Evaluate and award	Evaluate responses and issue the delivery order to DxMod, referencing the DxMod SEWP VI contract number.
4. Submit the order	Submit the order following the SEWP ordering instructions at www.sewp.nasa.gov . DxMod confirms receipt and begins work.

5. NASA SEWP Program Office

SEWP Helpline	help@sewp.nasa.gov (301) 286-1478
Hours	Monday to Friday, 7:30 AM to 6:00 PM ET
Website	https://www.sewp.nasa.gov
